Supplier Questionnaire
Sustainability Appendix (Low Priority)

1. Net Zero

1.1 Do you have BS EN ISO 50001 Energy Management System accreditation?

Is it from a UKAS registered certification body? If yes, please provide a copy.

1.2 Do you or all your supply chain's vehicles over 3.5T meet Euro VI (nox and pm) Emission Standards?

If yes, please provide evidence.

1.3 Are you accredited by any of the following:

- CarbonNeutral®
- The Carbon Trust

If yes, please provide evidence (e.g. digital certificate).

2. Product Sustainability

2.1	Can you provide any lifecycle information for your products to help inform our product selection (e.g. associated maintenance & deconstruction costs over 60-year building life)?	
2.2	If the timber you procure for Countryside is not certified to FSC or PEFC, can you provide evidence of compliance with the obligations of the UK Timber Regulation (UKTR)?	

3. Supply Chain

3.1	<p>Are any raw materials or products used, sourced from overseas?</p> <p>If yes, can the supplier demonstrate they are meeting labour standards in line with UN standards, through the Universal Declaration of Human Rights, or applicable ILO Conventions.</p>	
3.2	Are you able to provide evidence to show full transparency on the origin of products / materials / components (extraction, manufacturing, distribution, transportation distance) and identify all parties across your supply chain tiers?	

4. Social Impact

4.1	<p>Does your company follow the ISO 26000 Social Responsibility Standard guidance?</p> <p>If yes, please provide evidence of how this has been implemented.</p>	
-----	---	--

4.2	Are you accredited by Investors in People? If yes, please provide evidence.
